FOR IMMEDIATE RELEASE

PERLICK ANNOUNCES ITS OFFERING OF CEE TIER 1 AND TIER 2 PRODUCTS

MILWAUKEE, Wisc.—As the leader in energy-efficient undercounter refrigeration products, Perlick is pleased to have earned the Consortium for Energy Efficiency (CEE) Tier 1 and Tier 2 status on a number of qualifying products. CEE is a program in which administrators from across the U.S. and Canada work together on common approaches to advancing efficiency. Through joining forces, the individual efficiency programs of CEE are able to partner not only with each other, but with other industries, trade associations and government agencies. By working together at CEE, administrators leverage the effect of their funding dollars, exchange information on effective practices and, by doing so, achieve greater efficiency for the public good. Perlick's focus on green and energy-efficient products is a company-wide effort.

"Perlick has long prided itself on being the most environmentally-friendly organization it can be," says Jeff Wimberly, Director of Sales and Marketing for Perlick Residential & Hospitality Products. "Achieving CEE Tier 1 and Tier 2 status on such a wide range of products shows how strong our commitment is to preserving our energy resources. Perlick has once again merged superior performance with excellent energy preservation."

Celebrating 90 years of excellence, Perlick is the leader in commercial bar and beverage refrigeration and dispensing equipment. The Perlick brand can be found in the finest restaurants, bars, stadiums, hotels and resorts in the world and is now available for those who want the ultimate entertainment suite for the home. The Perlick product line includes both indoor and outdoor undercounter refrigerators, wine reserves, freezers, freezer and refrigerated drawers, clear ice makers and beer dispensers as well as countertop blender stations, cocktail centers and liquor displays. For more information about the Perlick product line, contact Perlick at (800) 558-5592 or visit www.perlick.com.
