UNDERCOUNTER REFRIGERATION CREATES THE ULTIMATE IN HOME ENTERTAINING
PERLICK Unveils the World's First 48-Inch Two-Door Refrigerated Cabinet
Creating A New Level of Luxurious Options for the Home

MILWAUKEE, Wisc. —For the homeowner who wants the best when it comes to a luxury home hospitality suite, bar, or satellite kitchen, there's nothing like having *two* refrigeration options at under-counter level, especially a freezer, refrigerator, or wine cabinet; however, that meant cobbling together *two* different units, until now. PERLICK CORPORATION, the company that has provided brewers, restaurants, and luxury commercial hospitality suites with superior equipment for nearly 90 years, unveils the world's first *48" Two-Door Refrigerated Cabinet* for the home. Designed for luxury home entertaining, yet engineered and crafted with commercial-grade quality, the *48" Two-Door Refrigerated Cabinet* is the new design statement for today's high-end homeowner.

The *48" Two-Door Refrigerated Cabinet* features two discrete compartments, side-by-side, that are standard cabinet height (34-1/4 inches). To fit the sophisticated tastes of discriminating homeowners, it is available in a variety of configurations for both indoor and outdoor use; including freezers, refrigerators, freezer and/or refrigerated drawers, wine cabinets and one, two or three faucet beer taps. Finished in gleaming stainless steel in its stand-alone version (a model with galvanized top and sides is also available, for building into custom cabinetry), the *48" Two-Door Refrigerated Cabinet* also features commercial-grade stainless steel for its interior – a feature both consumers and designers have long been awaiting.

Creating A New Level of Luxurious Options for the Home

In addition to its magnificent design (wood overlay door kits allow for total customization), PERLICK's patent-pending 48" *Two-Door Refrigerated Cabinet* is a showcase of breakthrough technology. With its whisper-quiet Variable Speed Compressor, the multi-compartment cabinet is more energy efficient than most popular single-cabinet units. In addition, adjustable black vinyl-coated full extension shelving is available to allow for easy access to products and to ensure that product does not slip off of the shelving.

"We believed it was time that the luxury homeowner was able to obtain the same quality that commercial enterprises do, yet with refined styling, energy efficiency, and quiet operation. The 48" *Two-Door Cabinet* offers all that and more," notes PERLICK CORPORATION Home Products Manager, Jeff Wimberly.

48-Inch Two-Door Refrigerated Cabinet configured with freezer and solid refrigerator door

Since 1917, PERLICK has been the leader in commercial bar and beverage refrigeration and dispensing equipment. The PERLICK brand can be found in the finest restaurants, bars, stadiums, hotels and resorts in the world and is now available for those who want the ultimate hospitality suite for the home. Product line includes undercounter refrigerators, wine cabinets, freezers, freezer and refrigerator drawers, clear ice makers and beer dispensers as well as countertop blender stations, cocktail centers and liquor displays.
