FINALLY, FREEZERS ARE COOL
Undercounter Freezers Boast Breakthrough Features
Which Elevate Home Entertaining To Unprecedented Heights

MILWAUKEE—In the ultimate home entertaining suite, every detail must reflect luxury and functionality equivalent to its owner’s desires. This includes the undercounter freezer, which – until now – has been considered a mere appliance in the grand scheme of home entertaining. Combining nearly a century’s worth of commercial experience with a brilliant sense of style, PERLICK CORPORATION brings the status of the undercounter freezer to new heights. Available in 24-, 48-, and 72-inch wide configurations, the PERLICK *Undercounter Freezer* shatters all preconceptions of what such units should look like or be able to do.

Photography available upon request.

Even first glance separates the PERLICK *Undercounter Freezer* from the competition. The counter-height models evoke their commercial lineage with PERLICK’s industry-leading stainless steel interiors; and doors available in stainless steel, with an optional wood overlay custom-matched to surrounding cabinetry, or configured as freezer drawers.

Offered in stand-alone or built-in configurations, the *Undercounter Freezer* boasts exclusive features, such as *built-in vinyl-coated racks made especially for storing and chilling martini glasses, beer mugs and vodka bottles* – so that the spur-of-the-moment cocktail is always an option. Thus, the PERLICK *Undercounter Freezer* is what transforms a mere “bar” into a veritable sky-box, or deluxe home entertaining suite. In addition, PERLICK’s undercounter freezer is UL-rated for outdoor use (an industry exclusive), making it the ultimate finishing touch on any outdoor kitchen.
